TOSHIBA TEC Australia Launches new Protech Panel PC and POS Terminal in Australia and New Zealand

Sydney – May 2009 - TOSHIBA TEC Australia, a leading POS solution provider, has today announced the exclusive distributorship of the Protech PS6508PPC Panel PC and PS5001 All-in-one POS Terminal in Australia and New Zealand.

The Protech PS6508PPC is a high performance 15" panel PC. It features a high performance Intel Celeron®M 1.5GHz CPU running on 1GB double data rate memory providing speedy processing for hospitality and retail businesses. Suitable for a range of applications from retail to hospitality, the PS6508-PPC features a large 15" touch screen and a powerful processing power all in a slimline stylish case. With a host of ports for connecting peripherals and an optional CF card reader slot and MSR, the PS6508-PPC offers a complete touch terminal solution. Wall or pole mountable via the VESA 100 wall mount, the PS6508-PPC is a versatile touch terminal solution with the ability to use it as a kiosk, POS terminal or digital signage.

The Protech PS5001 is a fully integrated all-in-one POS system. Utilising a high performance and energy saving Celeron®M 1.5GHz CPU processor, the PS5001 provides speedy point of sale processing for all retail business needs. The stylish PS5001 comes with several optional accessories such as the 3" easy loading thermal printer, 3 track MSR, 2x20 customer display, i-button, 2nd 15" customer facing display and compact flash slot. Suitable for both retail and hospitality use, the fully integrated PS5001 POS terminal offers a cost efficient POS for all retailers.

Brendan Trewartha, Managing Director, Toshiba TEC Australia, says the Protech POS Systems matches the unique needs of the Australian and New Zealand customers.

"The versatility of the Protech PS6508PPC panel PC is what our hospitality customers and dealers have always wanted us to provide. We have evaluated several brands and have finally chosen Protech as our vendor for this product due to their long standing partnership with Toshiba TEC Corporation and our common standing on product design and quality. The introduction of the Protech POS systems will complement our existing range of POS offered by Toshiba TEC."

The all-in-one design of the Protech PS5001 offers a very attractive combination to the small and medium size retailers. The product has a built-in 3" easy loading thermal printer, a magnetic swipe card reader and a 2 line customer display screen.

"We have seen a number of public interest in this product since the day we bring in the sample from Protech. Right now we are working on a number of projects ranging from pubs to education sectors offering this product." Says Jason Pang, Marketing Manager, Toshiba TEC Australia. "This product has a great potential in the retail markets given its all-in-one design under one footprint, reducing the need for other peripherals to be on the checkout."

Engel Wu, CEO of Protech says "Protech Systems has a long standing relationship with Toshiba TEC in the past and Toshiba TEC Australia's experience in the Australia and New Zealand markets made it the obvious choice when looking for a reliable distribution partner in this part of the region."
